**THIRD QUARTERLY RESULTS ANNOUNCEMENT
FOR THE NINE MONTHS ENDED 31 DECEMBER 2014**

CHARACTERISTICS OF THE GROWTH ENTERPRISE MARKET (“GEM”) OF THE STOCK EXCHANGE OF HONG KONG LIMITED (THE “STOCK EXCHANGE”)

GEM has been positioned as a market designed to accommodate companies to which a higher investment risk may be attached than other companies listed on the Stock Exchange. Prospective investors should be aware of the potential risks of investing in such companies and should make the decision to invest only after due and careful consideration. The greater risk profile and other characteristics of GEM mean that it is a market more suited to professional and other sophisticated investors.

Given the emerging nature of companies listed on GEM, there is a risk that securities traded on GEM may be more susceptible to high market volatility than securities traded on the Main Board and no assurance is given that there will be a liquid market in the securities traded on GEM.

Hong Kong Exchanges and Clearing Limited and the Stock Exchange take no responsibility for the contents of this announcement, make no representation as to its accuracy or completeness and expressly disclaim any liability whatsoever for any loss howsoever arising from or in reliance upon the whole or any part of the contents of this announcement.

This announcement, for which the directors (the “Directors”) of Gold Tat Group International Limited (the “Company”) collectively and individually accept full responsibility, includes particulars given in compliance with the Rules Governing the Listing of Securities on the GEM of the Stock Exchange (the “GEM Listing Rules”) for the purpose of giving information with regard to the Company. The Directors, having made all reasonable enquiries, confirm that to the best of their knowledge and belief the information contained in this announcement is accurate and complete in all material respects and not misleading or deceptive, and there are no other matters the omission of which would make any statement herein or this announcement misleading.

The Group will continue to support the business in terms of its trading capacity for a further growth.

Real Estate Development and Investment

The acquired real estate development project in Yangjiang City, Guangdong Province, “Xiangjiang Peninsula” has remained to be on schedule and progressed through stage two development steadily, now start planning for stage three development. The management is now forevermore closer monitoring the development progress to minimize the general slow down of the China economy coupled with recent economical events that may result uncertain macro outcome. Nonetheless local appetite and sentiment remains to be fair for the real estate to continue its development.

Closer to home in Hong Kong, the Group continues to enjoy the rental returns from continued lease out of the properties.

Prospects

The reduced exposure in Mobile Application Development and consequently conserved resources will benefit other business areas and stable the foundations of the Group. MTel Limited although will have the advantage on constant advance in technology particular in areas of entertainment, information and mobility through globalization, the cost is too much for the Group to bear. Moreover, the potential upside capture through shareholding on the games development is an added bonus if future developments materialise.

ETC will leverage current relationships with suppliers and customers as well as extra resources available to look for new opportunities in increasing trading product varieties and sales volume. With the existing market tread, the Group is comfortable to maintain its exposure and optimistic on the general outlook of this industry segment. The Group will continue to optimise the expenses incurred to increase profitability of this unit.

The unsettled economical and political changes in the PRC real estate market along with unstable worldwide economies meant the Group will continue to monitor closely on the developing projects in Guangdong province. In the meantime, with a fair local sentiment and the steady tradition of the PRC government history, the Group stays positive on the projects progress but will adjust strategies accordingly.
