

CHARACTERISTICS OF THE GROWTH ENTERPRISE MARKET ("GEM") OF THE STOCK EXCHANGE OF HONG KONG LIMITED (THE "STOCK EXCHANGE")

GEM has been positioned as a market designed to accommodate companies to which a higher investment risk may be attached than other companies listed on the Stock Exchange. Prospective investors should be aware of the potential risks of investing in such companies and should make the decision to invest only after due and careful consideration. The greater risk profile and other characteristics of GEM mean that it is a market more suited to professional and other sophisticated investors.

Given the emerging nature of companies listed on GEM, there is a risk that securities traded on GEM may be more susceptible to high market volatility than securities traded on the Main Board and no assurance is given that there will be a liquid market in the securities traded on GEM.

Hong Kong Exchanges and Clearing Limited and The Stock Exchange of Hong Kong Limited take no responsibility for the contents of this report, make no representation as to its accuracy or completeness and expressly disclaim any liability whatsoever for any loss howsoever arising from or in reliance upon the whole or any part of the contents of this report.

This report, for which the directors (the "Directors") of Gold Tat Group International Limited (the "Company") collectively and individually accept full responsibility, includes particulars given in compliance with the Rules Governing the Listing of Securities on the GEM of the Stock Exchange (the "GEM Listing Rules") for the purpose of giving information with regard to the Company. The Directors, having made all reasonable enquiries, confirm that to the best of their knowledge and belief the information contained in this report is accurate and complete in all material respects and not misleading or deceptive, and there are no other matters the omission of which would make any statement herein or this report misleading.

MANAGEMENT DISCUSSION AND ANALYSIS

GENERAL

The Group had been participating in the following activities:

- Trading of Electronic Hardware Components (Display and Touch Panel Modules) with Compatibility Solutions Advisory Services; and
- Real Estate Development and Investment

BUSINESS REVIEW

Trading of Electronic Hardware Components (Display Modules including LCD panel and IC Drivers) with Compatibility Solutions Advisory Services

The business segment has been facing enormous challenges; sales for the three months ended 30 June 2017 fell around 8.15%, from approximately HK\$150,598,000 in the same quarter last year to approximately HK\$138,329,000 in this year's first quarter. This segment obtained a turnaround from profit of approximately of HK\$426,000 to loss of approximately of HK\$1,243,000. Approximately 90% of income is contributed by IC driver sales. The IC driver is a component using with LCD panel. The drop in IC driver sales was resulted from decreasing demand of LCD panel in the market. It was because LCD panels fell short of supply and its price constantly increased, which affected customers' speed of placing order on LCD panel and thus our IC driver.

Looking forward in 2017, the business segment still faces considerable difficulties. Our customers have adopted prudent and stable marketing strategies for their businesses. It is estimated that, as from the beginning of the second half of the year, the gradual consumption of customers' overstock, coupled with the rise of sales on the market from a low level will make the business promising.

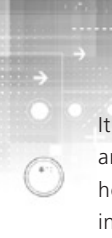

Under the experienced management leadership of ETC Technology Limited (“ETC”), the business unit will continue efforts to expand potential market and customers. Given the volatility of the prices in the electronic hardware components, the management team of ETC has been closely monitoring the overall changes in the relevant markets, so that a better product-mix, better margins and more stable selling prices for trading of our products can be achieved.

Real Estate Development and Investment

The Group has a real estate development portfolio of two projects concentrated in the area of Yangjiang City after disposal of investment in 陽江市中裕房地產開發有限公司 (Yangjiang Zhongyu Property Development Company Limited (“Zhongyu”). One of the two property development projects held had been in active sales by the respective partners on the few remaining residential and commercial units. The other project meanwhile had been slowly in developments meanwhile observing local market conditions.

As at 27 June 2017, the Group disposed its 50% interests in “Zhongyu”, which is the property developer of Xiangjiang Peninsula. The purchasers are the owners of the other 50% of Zhongyu. The terms and conditions were determined after arm’s length negotiations among the parties and the final consideration was proposed by the Purchasers and subsequently accepted by the Group taking into account: (i) the carrying amount of the investment in Zhongyu as at 31 March 2016 of approximately HK\$95,000,000; and (ii) the expected carrying amount of the investment in Zhongyu as at 31 March 2017 if the Disposal is not materialised. The expected carrying amount of the investment in Zhongyu as at 31 March 2017 was determined from the value in use calculations which involves the projection of cash flows. Based on the results of the value in use calculation, the expected carrying amount of the investment in Zhongyu was lower than the consideration for the sale and purchase of 50% registered capital of Zhongyu.

On the same date, the Group also acquired 9 villas and 36 commercial units of Xiangjiang Peninsula. The reason is that, the pace of the sale of properties of Xiangjiang Peninsula has been improving throughout the year, which would mean the people flow within the complex would be on an upward trend. This, thus, would help to minimise the risks of making such acquisition; and taking into account of the valuation performed by an independent professional valuer being greater than the acquisition amount, it would represent a good opportunity to invest in the property market. The Group intended to sell the 9 villas and to lease out the 36 commercial units.

It was noted that despite a general downturn of the Chinese economy, the local appetite and sentiment for the real estate maintained because of the general public's housing needs; however, the sentiment remained conservative. The Group will continue with its cautious investment evaluation approach and along with more preparations aiming against possible adverse conditions.

In Hong Kong, we currently have one investment property which is now renovation and we are looking for tenant to fill the void in due course.

Prospects

For the real estate market in the PRC, especially in the third and fourth-tier cities, is still in an adjustment period whereas the growth rate of real estate investment has also decreased significantly accordingly. Policies by the PRC Government and/or other regulatory policies, are believed to be conducive to long term stable development of the real estate market in China. The Group will continue to closely monitor the development of our property development projects in Guangdong Province and/or surrounding provinces, and will actively adjust development strategies to capture new market opportunities.

Looking ahead, the Group will continue to build our existing businesses, and will actively looking for new investment opportunities to steadily enhance the Group's profitability and the return to the shareholders.
