

MOBILE TELECOM NETWORK (HOLDINGS) LIMITED
流動電訊網絡(控股)有限公司*

(Incorporated in the Cayman Islands with limited liability)

(Stock code: 8266)

FIRST QUARTERLY RESULT ANNOUNCEMENT
FOR THE THREE MONTHS ENDED 30 JUNE 2009

**CHARACTERISTICS OF THE GROWTH ENTERPRISE MARKET (“GEM”)
OF THE STOCK EXCHANGE OF HONG KONG LIMITED (THE “STOCK
EXCHANGE”)**

GEM has been established as a market designed to accommodate companies to which a high investment risk may be attached. In particular, companies may list on GEM with neither a track record of profitability nor any obligation to forecast future profitability. Furthermore, there may be risks arising out of the emerging nature of companies listed on GEM and the business sectors or countries in which the companies operate. Prospective investors should be aware of the potential risks of investing in such companies and should make the decision to invest only after due and careful consideration. The greater risk profile and other characteristics of GEM mean that it is a market more suited to professional and other sophisticated investors.

Given the emerging nature of companies listed on GEM, there is a risk that securities traded on GEM may be more susceptible to high market volatility than securities traded on the main board of the Stock Exchange and no assurance is given that there will be a liquid market in the securities traded on GEM.

Hong Kong Exchanges and Clearing Limited and The Stock Exchange of Hong Kong Limited take no responsibility for the contents of this announcement, make no representation as to its accuracy or completeness and expressly disclaim any liability whatsoever for any loss howsoever arising from or in reliance upon the whole or any part of the contents of this announcement.

This announcement, for which the directors (the “Directors”) of Mobile Telecom Network (Holdings) Limited (the “Company”) collectively and individually accept full responsibility, including particulars given in compliance with the Rules Governing the Listing of Securities on GEM (“GEM Listing Rules”) of the Stock Exchange for the purpose of giving information with regard to the Company. The Directors, having made all reasonable enquiries, confirm that, to the best of their knowledge and belief, (i) the information contained in this announcement is accurate and complete in all material respects and not misleading; (ii) there are no other matters the omission of which would make any statement in this announcement misleading; and (iii) all opinions expressed in this announcement have been arrived at after due and careful consideration and are founded on bases and assumptions that are fair and reasonable.

* For identification purpose only

RESULTS

The board of Directors is pleased to present the unaudited condensed consolidated results of the Company and its subsidiaries (collectively referred as the “Group”) for the three months ended 30 June 2009, together with the unaudited comparative figures for the corresponding period in 2008 as follows:

UNAUDITED CONDENSED CONSOLIDATED INCOME STATEMENT

Notes:

1. Basis of preparation

The unaudited condensed consolidated financial statements have been prepared in accordance with Hong Kong Financial Reporting Standards (“HKFRS”), which collective term include all applicable individual HKFRS, Hong Kong Accounting Standards and Interpretations issued by the Hong Kong Institute of Certified Public Accountants, accounting principles generally accepted in Hong Kong and the applicable disclosure requirements of the Rules Governing the Listing of Securities on the Growth Enterprise Market of the Stock Exchange (the “GEM Listing Rules”). The unaudited condensed consolidated financial statements have been prepared under the historical cost convention.

The accounting policies and methods of computation used in the preparation of the unaudited condensed consolidated financial statements are consistent with those used in the annual financial statements for the year ended 31 March 2009 except in relation to the following new and revised HKFRS that are adopted for the first time for the current period’s financial information.

HKFRS 7 (Amendments)	<i>Financial Instruments: Disclosure – Improving Disclosures about Financial Instruments</i>
HKFRS 8	<i>Operating Segments</i>
HKAS 1 (Revised)	<i>Presentation of Financial Statements</i>
HKAS 23 (Revised)	<i>Borrowing Costs</i>
HKAS 27 (Amendments)	<i>Consolidated and Separate Financial Statements – Cost of an Investment in a Subsidiary, Jointly-Controlled Entity or Associate</i>

The Group has not early applied any new standard, amendment or interpretation that has been issued but is not yet effective.

2. Income tax

The Company was incorporated in the Cayman Islands as an exempted company with limited liability under the Companies Law of the Cayman Islands and, accordingly, is exempted from Cayman Islands income tax. Subsidiaries incorporated in the British Virgin Islands were exempted companies with limited liability under the Companies Law of the British Virgin Islands and, accordingly, are exempted from British Virgin Islands income tax.

No provision for Hong Kong profits tax is made in the financial statements as the Group has sufficient tax losses brought forward available to offset the current estimated assessable profits (three months ended 30 June 2008: Nil). Taxation on overseas profits has been calculated on the estimated assessable profits for the period at the rates of taxation prevailing in the countries in which the Group operates.

	2009	2008
	<i>HK\$’000</i>	<i>HK\$’000</i>
Taxation charge		
Current tax – overseas taxation	<u>3</u>	<u>–</u>

3. Earnings per share

(a) *Basic earnings per share*

Basic earnings per share is calculated by dividing the profit for the period attributable to equity holders of the Company by the weighted average number of ordinary shares in issue during the period.

	2009 <i>HK\$'000</i>	2008 <i>HK\$'000</i>
Profit for the period attributable to equity holders of the Company	<u>38</u>	<u>143</u>
Weighted average number of ordinary shares in issue during the period	<u>473,411,363</u>	<u>472,811,363</u>
Basic earnings per share	<u>0.008 cents</u>	<u>0.030 cents</u>

(b) *Diluted earnings per share*

Diluted earnings per share is calculated by dividing the profit for the period attributable to equity holders of the Company by the total of the weighted average number of ordinary shares in issue during the period and the weighted average number of ordinary shares assumed to have been issued at no consideration on the deemed exercise of all share options outstanding during the period.

	2009 <i>HK\$'000</i>	2008 <i>HK\$'000</i>
Profit for the period attributable to equity holders of the Company	<u>38</u>	<u>143</u>
Weighted average number of ordinary shares in issue during the period	<u>473,411,363</u>	<u>472,811,363</u>
Weighted average number of ordinary shares issued at no consideration on the deemed exercise of all shares options outstanding during the period	<u>4,965,388</u>	<u>5,244,672</u>

DIVIDEND

The Directors do not recommend the payment of an interim dividend for the three months ended 30 June 2009 (three months ended 30 June 2008: Nil).

MANAGEMENT DISCUSSION AND ANALYSIS

Financial review

The Group has remained profitable for the period ended 30 June 2009 although the profit narrowed to HK\$38,000 from HK\$143,000 of the corresponding period of last year. The Group's turnover was inevitably impacted by the global economic recession in the first half year of 2009 despite preventive measures taken by the Group to moderate the effect. As a result, the Group's turnover decreased to HK\$4,398,000, representing a 9.9% decline compared to that of the corresponding period of last year. The Group has managed to retain its gross profit margin at 47.4% which is slightly higher than 46.7% recorded in the corresponding period of last year.

Business review

Apart from setting its strong hold in Hong Kong and focusing the expansion in China, the Group continues to develop new services and expand into new markets. We are participating in the launching of the mobile TV services with 3HK in Hong Kong and also offering various mobile TV services across the region. Besides operating all the movie channels in Hong Kong, the Group has partnered with Nokia to deploy the mobile ticketing service. The mobile ticketing service is the 1st Nokia Widget mobile payment application which compatible with all latest N60 series handsets in Hong Kong. The group believes mobile TV and mobile payment service will be a natural extension from our value added services business. The Group continues to focus in two main business areas, value added services business and operators outsourcing business in the Greater China and Asia Pacific markets.

The Group has developed a very strong position in the Sport & Entertainment Services for mobile users across the region through key partnerships with the leading global news agencies. The mobile entertainment experience has becoming richer and user-friendlier thus delivering more real value for the subscribers. After the successful football season ended in April 2009, the Group has worked with the leading global sports agencies SportFive and Press Association Sports to deliver major sports events with the World Cup Qualifying football services in Hong Kong and other market. Apart from Football services, the Group has continued the business relationships with National Basketball Association (NBA) to acquire the exclusive mobile license rights in Hong Kong & Macau. This is the 3rd consecutive year license our Group has with the NBA. NBA mobile service is now available with Hutchsion 3HK & 3 Macau and CSL Hong Kong. We have also deployed the sports services into Indonesia, Taiwan, Singapore, Sri Lanka, etc. in order to fully utilize our unique GloDan (Global Data Network) network connections. We have coordinated the rights from branded content owners to distribute relevant content via the region's mobile operators' networks.

During this quarter, MTel China endeavoured to provide portals and e-business platforms development supporting services to China Mobile and signed an e-business platform development contract with China Mobile – Inner Mongolia to develop B2C business. With regard to developing markets, MTel China provided services to China Mobile at both provincial and municipal levels. Companies currently serviced include China Mobile – Beijing, China Mobile – Guangdong, China Mobile – Jiangsu, China Mobile – Inner Mongolia, China Mobile – Dongguan, Foshan and China Mobile – Guangzhou.

In the other market, the Group has also been able to offer a full range of multi-media services and business know-how to the operators throughout Southeast Asia. Under our strong content portfolios and our large library of offerings in 3G services provisioning in Hong Kong and Macau, the Group has successfully extended and continually expanded our services to the emerging markets including Malaysia, Pakistan, Singapore, Sri Lanka, Vietnam and Indonesia.

In the Hong Kong market, the Group has launched the two popular Taiwanese TV programs from StarTV, Blackie and Lollipop as Channel V into the mobile channels both for the mobile TV services and Video on Demand services. The Channel V mobile service is now available in all 3G mobile operators in Hong Kong market and the Group has extended the movie channels with offering at least with 2 mobile interactive gaming services with mobile operators as a joint promotion with movie distributors. This interactive gaming services have also extended into other content channels which are targeting in different segments of mobile users including Sports, Gaming, and Lifestyles centric group of youth. The Group believes the interactive gaming service is the evolution of deploying mobile content services that focus on the interactive aspect and create unique applications that simulate users' interest and enjoyment. Those interactive gaming services are mainly associated with the key campaigns together with advertisers for sponsorship including the movie distributors, sports brands, etc. The results of those services indicate the response rate continues to grow both on the click rate together with the revenue into value added services and the recent mobile campaigns including Transformers 2, GI Joe, Hasbro, M&Ms, etc. These partnerships include content providers, well-known brands as well as mobile marketing partners.

For mobile game business, the Group has entered into major partnerships with Electronic Art Mobile and THQ Wireless, 2 major game developers to distribute their games & content in Hong Kong and Macau market and we are now signing more than 100+ games & content developers. We further assist our games & content partners to enter the other Asian markets through the GloDan system to streamline the workflow of game launch. The Group has launched a JAVA Games Portal with Mobilink and Dialog, the largest mobile subscribers in Pakistan and Sri Lanka market to deliver the latest JAVA games and a range of mobile value added services. In Hong Kong, China Mobile Hong Kong has appointed the Group as a Master Game Provider to manage the entire JAVA Games business and the service has commenced in April 2009 and the Group is now working as a Master Game provider in JAVA Games business with 7 major mobile operators in Hong Kong and Macau. Apart from single player JAVA Games, the Group has launched a series of multi-player JAVA games titles with CSL, the largest mobile operator in Hong Kong in July 2008. The Group will continue to provide exceptional service quality & efficiency in the MVAS business. This is likely to lead more operators to collaborate with us in their MVAS operations.

The mobile entertainment segment is increasingly Internet bounded. The Group's Mobilesurf service platform for full entertainment service provisioning is relevant to this trend. Instead of a typical operator wall garden approach to content delivery, the launching of the iPhone brings Internet content such as YouTube & Google map mobile sites in a fashion that is similar to our Mobilesurf service platform. We plan to further expand our Mobilesurf platform to deliver content via the Internet and look for iPhone, Widget type of client application opportunities in China. The Group also partnered with Hutchison 3HK to launch four key value added services on 3G iPhone that tie into the handset launching since 11 July 2008 and the Group is started to develop more widget applications with handset manufacturers.

Mobile games, which we first started as an operator outsourcing business, now grow to become a major MVAS platform for us. The Group is also scaling its game hosting business to serve the various channels & exploring new markets such as China, Indonesia, Pakistan, Vietnam, Sri Lanka, etc. In this regard, more operators consider outsourcing their existing data products and services to independent third parties. The Group has benefited by this trend and has won several outsourcing projects from operators in this region. The Group is now serving 7 mobile operators in Hong Kong and Macau to operate the entire mobile game business including 3HK & Macau, CSL & New World Mobility, PCCW Mobile, China Mobile Hong Kong, and Macau CTM. This collaboration shows the strong recognition to the Group of its experience and expertise in gaming business and considers the Group as the key player in this arena to assist mobile operators to operate the games and numerous other MVAS business in both 2G and 3G markets.

The Group has formed a partnership with several international content providers to distribute its branded content on wireless distribution of its rich content pool that brings iconic branded titles such as Monsters vs Aliens, Transformers, GI Joe, X Men, and Harry Potter content to 3G and 2G mobile users in Hong Kong and other countries. Through our GloDan network, EA Mobile has recently been made available to Hong Kong subscribers and the services are also available in various forms, including the popular brands with movie, TV drama, console game, and toy related titles. The Group is strongly poised to provide consumers with innovative new product that targets the teen and young adult market, offering a diversified range of mobile content products, personalized and located to the market.

In addition, the Group has licensed our content management and delivery system to Hong Kong Jockey Club, facilitating them to manage workflow needed to collaboratively publish various kinds of digital media and content feed and dispatch into various types of media channel or external parties.

Prospect

Since the latter part of the year 2008 with the worldwide financial crisis, the Group has been strengthening our key business into our existing key markets. The mobile entertainment market is getting increasingly competitive with major corporations creating new companies or divisions to enter this market in a major way. The Group will also explore new opportunities to diversify its main dependence on mobile service provisioning. The outsourcing business seems to be a growing trend in periods of economical crises and the Group will focus to expand more in this direction.

We expand content aggregation business to include IP rights management for our partners. For some of the new market such as Philippines, Vietnam, Sri Lanka, and Indonesia, the Group will plan to act as a master content aggregator on behalf of the local operators and define the solid business cases for them in order to maximize the revenue and minimize the resources allocation. In addition, the Group will also share its experience and strategy of our successful services with operators in new markets in order to achieve the mutual benefit between both parties. The Group has recently signed up with more content partners including established brands such as Star TV to distribute its programs in the region and the world's leading gaming companies. In addition, the Group shall extend more business relationships with WiFi service providers and handset manufacturers as more new handsets shall support the WiFi connection. In term of the content strategy, the Group is exploring the cross platform value added services with mobile operators and the Group shall extend some of the core values added services into the Web platform business as well as the mobile operators have extended their business strategy into the mobile broadband.

For the more advance 3G markets such as Australia, Hong Kong, Malaysia, Singapore and Taiwan, the Group believes diversification of multi-media with interactive services to attract customers from different content types will be the focus of the near future. The Group continues to operate its 3G services in Malaysia and Singapore and plans to expand our offerings to more operators there. The Group will develop applications and create more interactive services with the 3G operators to bring 3G technologies to the business and the consumer markets. Once the market acceptance has adopted and increased more traffic in hit rates of individual service, the mobile advertising will be the next curve into the business and the Group shall also play a key role in this business with launching more than 100+ mobile value added services with the mobile operators in Asia market. In addition, the Group has formed and extended our focus into the mobile enterprise market which tackles into the vertical market with SME business. The Group believes it will be driven another new revenue stream both on recurrent and project based business.

The Group brings to the telecom operators with a broad frontier of new businesses and entertainment services based on our extensive experience in mobile data services provisioning since 1999. The Group's newly developed services include video blogging & messaging with the subscribers in combination with easily downloading clips from films, music, sports and information services channels. The Group believes SHOWME!, the user-generated content revolution has begun and will become into a mainstream business in mobile arena.

In addition, the Group is working closely with mobile operators to strengthen our sports channel as well as the new football season in August 2009. The Group believes the Sports channel shall be one of our key value added services in mobile market and the Group is partnerships with various media agencies to explore the mobile advertising into our Sports channel. More other content services including Entertainment, Lifestyle & Leisure, Dining, Movie, Cartoon, Games, Fortune Telling, etc. will be available as well. The Group is ideally positioned to benefit from this development, as the Group is currently one of the largest 3G content providers with longest track record to provide 3G related services to operators in Hong Kong and it is also expected to be introduced soon in Singapore, Taiwan, and Malaysia especially with the Asian content for Chinese community in the region. In the advance services, the Group shall deploy more interactive gaming services and video broadcasting services such as mobile TV in order to enhance the user behaviors on the mobile phone. The Group has recently signed up with more content partners including established brands and leading gaming companies. Our extensive experience in offering different types of mobile services totaling several hundreds further positions the Group to capture more business opportunities as they quickly emerge in the PRC market.

For the existing markets, China, Hong Kong, Singapore, Taiwan, Malaysia and Australia continue to be the Group's major revenue markets. The Group shall continue to expand its outsourcing projects with operators in order to maintain steady revenue on a recurrent basis. Although the manpower cost is relatively high in Hong Kong, the Group benefits from further outsource lower requirement projects to its associate company in the PRC. In addition, the Group believes its business model can be extended into other new markets such as Vietnam, Pakistan, Indonesia or any other new potential markets for business cooperation. The scale in terms of both quantity of content and operators remains the Group's strongest differentiation point.

Youth targeted lifestyle applications & services such as dating services, mobile blogging, and mobile comics are also gaining popularity in Hong Kong. Operators are expecting a high demand for Internet-based, interactive, multi-media mobile communication services such as chat, video, and interactive games in the near term. Although Hong Kong is still a small market, the Group is expected to achieve a high growth in the medium term. Two main drivers for the growth would be popularity of the mobile gaming and mobile blogging. In terms of Internet strategy, the Group believes the trend to deliver the same communication services to end-user over both Internet and mobile networks will determine the future access. The Group shall extend our force to explore with the strategic partnerships to extend its services into Internet platform as extension.

The uptake of 3G services into 3.5G technologies will also bring a shift in the dynamics of the market in Asia. As the market is likely to move to a more advanced Internet and multimedia-based content, we plan to ride on our existing advantages and experience to provide a variety of rich-media content with operators and new potential platform on 3G iPhone across the Asia market. The overall revenue in other markets is expected to achieve a high growth in the next quarter over the forecast period.

In future business development in China, given the fact that 3G licenses have been granted to the major operators there, the Group with its edge and experience in 3G services will provide domestic and international content that are well suited to the Chinese culture as well as services to meet customers' demands.

The Group is focusing its business to serve the various brands to mobilize their content and brands from more traditional media platforms. The Group is cooperating with handset manufacturers for efficient service provisioning. The efforts include pre-load and prominently feature and the Group's services with optimized handsets, giving consumers quick and easy access to their Internet content and services. The devices will be available to consumers in Hong Kong and afterward will be extending into a number of markets across Asia.

At present, the Group covers most of the telecom operators and portals in the Asia Pacific region. We continue to work steadily with partners in other regions such as Korea, Indonesia, Philippines, Sri Lanka, Pakistan, Thailand and Vietnam. We plan to develop our 2G & 3G services in terms of advances in technology, customer services, user experience and quality of services as our strongest differentiation from any competitors in the region.

DIRECTORS' AND CHIEF EXECUTIVES' INTERESTS AND SHORT POSITIONS IN SHARES, UNDERLYING SHARES AND DEBENTURES OF THE COMPANY

As at 30 June 2009, the interests and short positions of the Directors and chief executives of the Company in the shares, debentures or underlying shares of the Company and its associated corporations (within the meaning of Part XV of the Securities and Futures Ordinance (the "SFO"), which were required to be notified to the Company and the Stock Exchange pursuant to Divisions 7 and 8 of Part XV of the SFO) or which were required, pursuant to section 352 of the SFO, to be entered in the register referred to therein or which were required, pursuant to Rules 5.46 to 5.67 of the GEM Listing Rules relating to securities transactions by Directors, to be notified to the Company and the Stock Exchange, were as follows:

PURCHASE, SALE OR REDEMPTION OF LISTED SECURITIES

Neither the Company nor any of its subsidiaries has purchased, sold or redeemed any of the Company’s listed shares since the date of listing.

DIRECTORS’ INTEREST IN COMPETING BUSINESS

During the period under review, none of the Directors or the management shareholders or substantial shareholders or their respective associates (as defined in the GEM Listing Rules) of the Company had an interest in a business which competed with or might compete with the business of the Group.

CORPORATE GOVERNANCE CODE COMPLIANCE

During the period under review, the Company has complied with the code provisions of the Code on Corporate Governance Practices contained in Appendix 15 of the GEM Listing Rules except for the deviations from code provision A2.1 and A4.2 as detailed in the Corporate Governance Report included in the 2009 Annual Report that the roles of chairman and chief executive officer are performed by the same individual, and that the Chairman (who is also the founder and the largest shareholder of the Company) is not subject to retirement by rotation.

DIRECTORS' SECURITIES TRANSACTIONS

During the period under review, The Company has complied with the GEM Listing Rules 5.48 to 5.67 regarding Directors' securities transactions and all Directors have complied with the required standard of dealings set out therein.

AUDIT COMMITTEE

The Company has an audit committee which was established with written terms of reference in compliance with the GEM Listing Rules. The audit committee has three members comprising all independent non-executive directors namely Mr. Jeffery Matthew Bistrong, Mr. Chu Chin Tai, Eric and Mr. Chen Kwok Wang, Kester. The primary duties of the audit committee are to oversee that management (i) has maintained the reliability and integrity of the accounting policies and financial reporting and disclosure practices of the Company; (ii) has established and maintained processes to assure that an adequate system of internal control is functioning within the Company; and (iii) has established and maintained processes to assure compliance by the Company with all applicable laws, regulations and corporate policy. The audit committee has reviewed with the management this unaudited quarterly result announcement for the three months end 30 June 2009 and has provided advice and comments thereon.

By order of the Board
Chan Chung
Chairman

Hong Kong, 10 August 2009

As at the date of this announcement, the Board comprises of two executive directors namely Dr. Chan Chung (Chairman) and Mr. Chan Wai Kwong, Peter; and three independent non-executive directors namely Mr. Jeffery Matthew Bistrong, Mr. Chu Chin Tai, Eric and Mr. Chen Kwok Wang, Kester.
